

RANGE GLOBAL SERVICES

The Most Affordable & Understandable Satellite Telephone Rentals

Don't be confused, or overcharged by other companies wanting to charge additional fees for airtime and accessories for satellite phone rentals. Range Global Services has put together the most affordable satellite phone rental prices available. Our prices include all of the accessories, not just a wall charger like our competitors. RGS also includes airtime with its rentals, which means you do not need to buy high priced bundles or packets which won't get refunded if you don't use.

All of RGS rental phones include the Iridium Satellite Phone, Two Batteries, AC and DC Charger, Antenna Adapter and External Antenna. RGS also includes 75 minutes of airtime with each monthly rental to ensure you have the airtime you need without paying rates of \$1.75 to \$1.95 per minute. If you use more than 75 minutes, RGS charges \$1.25 per minute for overage - on average \$0.50 per minute less than our competition.

**Don't be fooled by low, teaser rates, only to find hidden surcharges!
Take advantage of RGS's Rental Rates.**

WHAT RGS INCLUDES FOR FREE THAT OUR COMPETITORS DON'T:

A US Based number for one stage direct dialing

Airtime with the monthly fee

Voicemail

All of the accessories that should be provided with your rental phone and not charged extra for, including a spare battery, car charger, antenna adapter, and external antenna.

Monthly Rentals for \$225 with 75 minutes of airtime

Seasonal Rentals (four or more months) for \$175 per month
with 75 minutes of airtime per month

Any overage billed at \$1.25 per minute

*Calls to other Satellite Phones Billed \$8.95 per minute
